

Anfino Jegoal

Full Stack Developer | MERN Stack | React.js | Node.js

📍 Kanyakumari, Tamil Nadu | 📞 +91-6374206612 | ✉ anfinojegoal@gmail.com | [🌐 LinkedIn](#) | [📁 GitHub](#)

Summary

Full Stack Developer specializing in MERN stack with hands-on experience building scalable, secure, and production-ready web applications. Strong foundation in Data Structures and core computer science concepts. Experienced in REST API development, authentication systems, real-time communication, and cloud deployment. Passionate about backend optimization and modular architecture.

Skills

Languages: C++, JavaScript, HTML5, CSS3

Frontend & Backend: React.js, Redux, Node.js, Express.js

Database & Tools: MongoDB, MySQL, Git, GitHub, Postman, VS Code

Cloud & Technologies: MERN Stack, Socket.io, JWT, Tailwind CSS, Render, Vercel

Experience

Full Stack Developer-Intern

Nov 2024 – April 2025

Stack Up Learning Hub (Remote)

- Engineered scalable MERN stack applications and designed 20+ RESTful APIs with JWT authentication, authorization, and secure backend architecture.
- Integrated real-time communication using Socket.io and enhanced MongoDB query performance, improving backend response time by 35%.
- Deployed production-ready applications on Render and Vercel while applying MVC architecture, modular coding standards, and secure file handling practices.
- Collaborated in Agile teams, contributing to sprint planning, code reviews, and CI/CD pipelines.

Projects

Enterprise Real-Time Communication Platform

- Architected a scalable real-time messaging application using MERN stack with secure RESTful APIs and JWT-based authentication.
- Integrated Socket.io to enable multi-user communication, live messaging, and media sharing with low-latency performance.
- Enhanced backend efficiency by optimizing MongoDB queries and applying MVC architecture for a modular and maintainable system.

Full-Stack Content Management System

- Built a secure CMS with role-based access control (Admin/User) and protected API routes using JWT authentication.
- Designed a responsive React admin dashboard supporting complete CRUD operations and secure file uploads using Multer.
- Deployed the application on Render and Vercel while improving database response time by 30% through backend optimization.

Certifications/ Professional Training

- Cloud Computing — NPTEL | Jan–Mar 2023
- English Language for Competitive Exams — NPTEL | Jan–Mar 2022
- Introduction to Industry 4.0 and Industrial Internet of Things — NPTEL | Jan–Mar 2021
- MERN Stack Developer Course — Professional Certification

Education

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering
Karunya Institute of Technology and Sciences, Coimbatore

Graduated: 2024
